Introduction

This Relocation Report is designed to provide information about the economic and social structures of the selected communities. This report will compare the social and economic conditions of two communities, each containing 1 or more zip codes. Information used in this report has been broken down to the zip code level. If more than one zip code has been selected for a community, the information displayed will be an average of all the information from the zip codes that make up that "community."
The information found in this report has been compiled and collected from the US Census and other data collection agencies.

The maps below show the center of the communities that are represented in this report.

Average Time to Work	26.0	25.0

Community Crime Information

This report shows information collected from US Census data and other data collection agencies and is broken down by community and by type of crime, and includes a Total Crime total as well. The information at the base of each bar on the bar graph denotes the type of crime that colored bar represents. The information at the top of the community bar graph indicates how that total compares to the national average for that type of offense.

The national average is represented as "100" and is indicated by the red line running across the bar graph. The numbers at the top of each bar represent how much over or under the national average the community rates for this offense.

## Wynnewood Crime

Weather and Environmental Details

Weather Report includes information collected from US Census data and other data collection agencies and shows the weather information for the communities you have selected. Included are temperature highs and lows averaged for the months of January and July for each community.

Environmental Details includes information collected from US Census data and other data collection agencies and shows the environmental details for the communities you have selected. The information at the base of each bar on the bar graph denotes the type of weather risk that colored bar represents. The information at the top of the community bar graph indicates how that total compares to the national average for that type of weather risk.

The national average is represented as "100" and is indicated by a red line running across the bar graph. The numbers at the top of each bar represent how much over or under the national average the community rates for this weather risk.
